

دکتر ابراهیم جباری

استاد

رتبه علمی

تحصیلات:

دانشگاه لوون

دکتر

دانشگاه لوون

کارشناسی ارشد

دانشگاه علم و صنعت ایران، تهران، ایران

کارشناسی

سوابق شغلی

- عضو هیات علمی دانشکده مهندسی عمران موسسه آموزش عالی علوم و فناوری آریان
- عضو هیات علمی بازنشسته ، دانشکده عمران، دانشگاه علم و صنعت ایران

سوابق تدریس دانشگاهی

کارشناسی

- فرسایش و انتقال رسوب
- مکانیک سیالات I
- مکانیک سیالات II
- هیدرولیک کانال های باز
- آبهای زیر زمینی
- ماشین های آبی و ایستگاه های پمپاژ
- مدل های هیدرولیکی
- سیستم های انتقال آب

کارشناسی ارشد

- هیدرودینامیک
- مهندسی رودخانه
- طراحی سازه های هیدرولیکی

دکتر

- مکانیک انتقال رسوب
- هیدرودینامیک پیشرفته

- , The Effect of Bed Material Size on the Maximum Scour Depth in the Plunge Pools
2004, *International Journal of Engineering Science*
- *International Journal of* ,Deriving Reservoir Operating Rules via Fuzzy Regression and ANFIS
2004, *Computational Anticipatory Systems*
- 2004, *Geography and Development* ,Analysis of Hydrologic Draught Frequency Distribution
- *International* , ,Using meta-heuristic models for simulation of sediment transport in rivers
2006, *Journal of Computational Anticipatory Systems*
- Performance of Submerged Aerated Biofilters for Wastewater Treatment and Excess Biological
Sludge Production
No. 60, 2006, *Water and Wastewater*
- .NO. 39, 2006, *Journal of Coastal Research* ,Longitudinal Dispersion Coefficient in Estuaries
- Evaluation of Operation of Submerged Aerated Biofilters for Wastewater Treatment and Excess
Biological Sludge Production
Vol. 18, No. 10, 2007, *Pakistan Journal of Biological Science*
- Simulation of Sediment Transport in Coastal Areas With Meshless Local Petrov-Galerkin
Scheme
NO. 50, 2007, *Journal of Coastal Research*
- Neutral-Network-Based Simulation-Optimization Model for Water Allocation Planning at basin
Scale
2008, 4..10, *Journal of Hydroinformatics*
- Modeling of Salinity Intrusion under Different Hydrological Conditions in the Aevand River
Estuary
2008, 35, *Canadian Journal of Civil Engineering*
- ,Simultaneous Layout and Pipe Size Optimization of Pipe Networks Using Generic Algorithm
g, Vol. 33, 2008 *Arabian Journal for Science and Engineerin*
- Local Heaviside-Weighted LRPIM Meshless Method and its Application to Two-Dimensional
Potential Flows
2009, 59, *International Journal for Numerical Methods in Fluids*
- Fluctuation in a Coastal Leaky Numerical Solution of Groundwater Flow Response to Tidal
Approach to the Truly Meshless Local Radial Point Confined Aquifer by an Efficient Novel
Interpolation Method
2011, *International Journal of Computational Fluid Dynamics*
- Numerical Simulation of Ground water Flow via a New Approach to the Local Radial Point
Interpolation Meshless Method
2011, *International Journal of Computational Fluid Dynamics*
- Using Artificial Neural Networks for Estimation of Scour at the Head of Vertical wall
Breakwatert
NO. 64, 2011, *Journal of Coastal Research*
- A New Approach for Analyses of Groundwater Flow Response to Tidal Fluctuation in a Coastal
Leaky Confined Aquifer
NO. 64, 2011, *Journal of Coastal Research*

- Estimation of Wave-Induced Scour Depth Below Coastal and Marine Pipelines Using Non-Dimensional Parameters .In press ,*Journal of Coastal Research* ,
- Reducing of Excess Sludge Production in Wastewater Treatment Using Combined Anaerobic /Aerobic Submerged Biological Filters ,*Iran. J. Environ. Health. Sci. Eng* , ۲۰۱۱
- Intakes in Open Channel Predictive Model-based for the Critical Submergence of Horizontal Flows with Different Clearance Bottoms using CART, ANN and Linear Regression Approache ,*Expert Systems with Application* , ۲۰۱۱
- Discussion of “Prediction of Intake Vortex Risk by Nearest Neighbors Modeling” by Quentin B. Travis and Larry W. Mays ,*Journal of Hydraulic Engineering,ASCE* , ۲۰۱۱
- Stream Function-Vorticity Collocated Discrete Least Quares (CDLS) Meshless Method for the Equations Formulation of 2D Incompressible Navier–Stokes ,*Scientia Iranica* , ۲۰۱۲
- Detrming Natural Frequency of Free Spanning Offshore Pipelines by Considering the Seabed Soil Characteristics ,*Journal of Persian gulf* , ۲۰۱۲
- Collocated Discrete Least Squares (CDLS) Meshless Method for the Simulation of Power-Law Fluid Flows ,*Scientia Iranica* , ۲۰۱۳
- Wave hindcasting in Anzali, Caspian Sea: a hybrid approach ,*Journal of coastal research* , ۲۰۱۳
- Velocity Field in a Reservoir in the Presence of an Air-Core Vortex ,*Water Management* , ۲۰۱۳
- Application of Honey-Bees Mating Optimization Algorithm on Estimation of Suspended Sediment Concentration ,*World Applied Sciences Journal* , ۲۰۱۳
- Meshless Method for the A Node Enrichment Strategy in Collocated Discrete Least Squares Solution of Generalized Newtonian Fluid Flow ,*Scientia Iranica* , ۲۰۱۴
- Effects of Climate Change on the Thermal Rregime of a Reservoir ,*Water Management* , ۲۰۱۴
- Assessment of M5 Model Tree and Classification and Regression Trees for Prediction of Scour Depth Below Free Overfall Spillways ,*Applications & Computation Neural* , ۲۰۱۴
- Dynamic Pressure Analysis at Chute Flip Buckets of Five dam Model Studies ,*International Journal of Civil Engineering* , ۲۰۱۴
- Numerical Simulation and Analysis of Flow in a Reservoir in the Presence of Vortex ,*Engineering Applications of Computational Fluid Mechanics Vol. 8, No. 4* , ۲۰۱۴
- A Least Squares Based Meshfree Technique for the Numerical Solution of the Flow of Viscoelastic Fluids: A Node enrichment Strategy ,*Engineering Analysis with Boundary Elements* , ۲۰۱۵
- Estimation of Scour Depth Below Free Overfall Spillways Uusing Multivariate Adaptive Regression

- *Applications of Computational Fluid Splines and Artificial Neural Networks, Engineering Mechanics*, ۲۰۱۵.
- Discrete mixed subdomain least squares (DMSLS) meshless method with collocation points for modeling dam-break induced flows, *Hydroinformatics*, ۲۰۱۶.
- A New Approach to Selecting Optimum Locations of Sampling Stations in Karkkeh Dam Reservoir Using CE-QUAL-W2 Model, *Journal of Modarres Civil Engineering*, Winter 2016.
- Estimation of Transverse Mixing Coefficient in Straight and Meandering Streams, *Resources Management*, ۲۰۱۷.
